GET READY TO EXPLORE

SERENGETI NATIONAL PARK

The most famous safari destination in Africa. The biggest drawcard is the spectacle of the Great Migration of wildebeest and zebra herds. View the Big Five and experience the rich culture of the region's traditional Maasai tribes people. A hot-air balloon ride at dawn is a truly memorable experience.

MOUNT KILIMANJARO

Climb Kilimanjaro - the world's tallest free-standing mountain and the highest in Africa offers several guided 5 to 10 day hikes to the summit. The best months to climb Kilimanjaro are January, February, and September when it is warm and dry.

NGORONGORO CRATER (CONSERVATION AREA)

The crater is a unique ecosystem filled with wildlife - including giant tusked elephants, black-maned lions and endangered black rhino. During the rainy season the crater's soda lakes are home to thousands of rose-coloured flamingos.

LAKE MANYARA NATIONAL PARK

Beneath the cliffs of the Manyara Escarpment, this park offers a tapestry of woodlands, grassland and swamps. The lush jungle-like forest is home to hundreds of baboons and blue monkeys. In contrast are the grassy floodplains and alkaline lake where thousands of pink flamingos often visit. In addition to the amazing birdlife, another reason to visit are the famous tree-climbing lions.
