Montserrat with Cog Wheel

Montserrat is a rocky mountain located 50 km to the southwest of Barcelona. It is considered the most significant and important mountain of Catalonia. The etymology of Montserrat comes from Catalan Mont (mountain) and serrat (serrated). The mountain receives its name for its peculiar morphology. In 1987 Montserrat was declared a Natural Park to ensure its conservation. The importance of this mountain is due to the legend of the miraculous appearance of the Madonna and Child in one of the caves. This cave received the name Santa Cova (The Saint Cave). To this day the wood carving of the Madonna and Child are kept in the Church of the monastery and it is possible to visit it. This image of the Madonna is popularly known as La Moreneta (The Black Madonna) for its dark colour. The colour is the result of a reaction caused by varnish. La Moreneta's holiday is on April 27th.

Due to the legend of the Madonna, the mountain has been linked with spirituality. Besides the main monastery of Santa Maria de Montserrat, there is a great number of small churches and chapels, some of them abandoned. The main monastery stands at 720 meters above sea level. Nowadays there is a community of 80 monks that live there and follow the rule of Saint Benedict. During the first part of the tour you will enjoy an introduction to the history of the monastery. Once the guided tour has ended, you will have free time to enjoy de fabulous land scape by yourself, to visit the local food market, to visit de audio-visual exhibition and to taste some typical liqueurs. Includes Montserrat Rack Railway (Cog-Wheel Train).
