

VILLAS CAROLINE

Located at the heart of the small-town of Flic en Flac, where authenticity and modernity complement each other, the hotel lengthways a white sand beach opening up on a turquoise lagoon. Upon arrival, Villas Caroline makes you taste the sweetness of the Mauritian art of living with its red tin roofing, Creole house inspired architecture, infinity-edge swimming pool with baby basin, and its coconut trees quiescently elongating skywards.

Just steps away, the small fishing pier offers typical Mauritian life moments. All local shops and the necessary amenities are reachable by walk, short drive or minutes by bus. Our hotel is also a wonderful playground for children and you can trust our Mini Club to safely keep our mini guests entertained while you enjoy everything we have to offer.

Villas Caroline strides towards a tradition of hospitality, where professionalism and friendliness combine to meet the needs of its local and international clientele. Choosing our hotel assures an idyllic setting and a dedicated team at your service to create the holiday of your dreams.

Enjoy all the entertainment offered by the hotel. Our sport activities, games and shows will make your holiday even more memorable. On Saturday nights, you will discover the sometimes suave sometimes frenzied rhythm of traditional Mauritian music, the Sega.

Our entertainment team will make you smile, especially with our organised games at lunchtime and early evening while five times a week a musical ensemble fine-tunes the charming atmosphere of aperitif and dinner time.

The hotel is bordered by a white sand beach and turquoise waters of a pristine aquascaped lagoon where coral and fish will delight children and adults alike. Those who like spending their days having fun or looking to try new beach & nautical activities can turn to our 'Case Nautique', where they will be spoiled for choice. And of course our beach deckchairs are an invitation to refine your suntan while enjoying the idyllic view.

Holidays are an opportunity to break from the stress and hectic pace of everyday life.
